

07 March 2008,

Dear Members of the AITT,

There is no doubt that the AITT has been in turmoil for quite a few years. There is however also no doubt that the dedication of a few industry veterans has kept the AITT alive.

On 01 March some of us stopped asking "*What can the AITT do for me?*" and began to ask "*What can I do for the AITT?*"

This is what has been done, continuing to be worked on and planned to be completed in 2008:

- Two people have been appointed to answer all questions; namely:
 - Marc: 0405 790 444 marc@aitt.asn.au
 - Andy: 0411 888 880 andy@aitt.asn.au
- The Federal Secretariat has moved to Queensland. If you are interested in establishing a Regional Chapter please do call or email us.
- Negotiations to affiliate with our counterparts in the USA, UK, Canada and New Zealand have begun. If you have contacts in any other countries or would like to be part of the process please do call or email us.
- The following commercial ventures are being investigated:
 - AITT – Publications.
 - AITT – Education.
 - AITT – Properties.
 - AITT – Finance.

If you have any other suggestions or would like to be part of the process please do call or email us.

- Re-engineering and expansion of the AITT website has begun. If you know anyone that may be interested in advertising/sponsoring this project or if you would like to be part of the process please do call or email us.

We that have stepped up to the challenge would like to ask each and every one of you, your colleagues, Staff and associates to seriously consider becoming financial members of the AITT. Should you decide to stand up and be counted your membership form is available.

Your colleague,

Andy
